

MEDIA RELEASE

CDL ELEVATED TO BCA GREEN MARK PLATINUM CHAMPION STATUS

- *City Developments Limited leads in developing and operating green buildings in Singapore*
- *Housing & Development Board reached the mark for BCA Green Mark Champion*
- *More than half of the BCA Green Mark certified projects achieved higher ratings this year*

1 The BCA Green Mark Awards has set new heights this year. Apart from conferring a record number of 164 awards, the first ever **BCA Green Mark Platinum Champion Award** will also be accorded to private developer, City Developments Limited (CDL). Prior to this win, CDL was also the sole winner of the inaugural BCA Green Mark Champion Award when it was launched in 2008. This time round, the Housing & Development Board (HDB) joins the list of leading exemplary green developers as **BCA's Green Mark Champion**. HDB is the first public sector agency to receive this prestigious award.

2 The Green Mark Champion Award was conceived by BCA to accord recognition to leading developers and building owners who have demonstrated strong commitment towards Corporate Social Responsibility by actively promoting and driving Singapore's green building movement. There are two levels for the award, namely, the Green Mark Champion and Platinum Champion status. To qualify as BCA's Green Mark Champion, the developer or building owner would need to deliver at least ten Green Mark projects of Gold or higher rating, including three Green Mark Platinum projects. To achieve the Green Mark Platinum Champion status, the winner would have to deliver at least 50 Green Mark projects of Gold or

higher rating, including 15 Green Mark Platinum projects. *(More details on the award criteria are available in Annex A.)*

3 Since the BCA's Green Mark scheme was introduced in 2005, CDL has been strongly supporting the initiative by certifying all their new residential and commercial developments under the scheme. They have also taken on the task of greening their existing buildings to achieve higher energy efficiency. To date, CDL has developed and retrofitted over 50 Green Mark building projects, out of which 16 are Green Mark Platinum projects including City Square Mall, The Oceanfront @ Sentosa Cove, The Solitaire, as well as Fuji Xerox Building, an existing building that has been retrofitted to meet Platinum standards. Over the years, CDL has taken a holistic life-cycle approach towards environmental sustainability. They have adopted a three-pronged approach in their business, namely, to develop eco-friendly properties, manage buildings in a cost-effective and energy-efficient way and influence stakeholders to be more environmentally-conscious. Their strong commitment towards environmental sustainability is testament to their reputé as a leading green developer in Singapore.

4 "Climate change presents both challenges and opportunities to the building industry to mitigate its impact on the environment. As a leading property developer and amongst Singapore's largest landlords, CDL has embraced environmental responsibility as an integral strategy for continued growth and business excellence, conserving as we construct for over a decade. We are proud to have been the first Green Mark Champion in 2008 and now the inaugural Green Mark Platinum Champion. We remain committed to driving green building innovation and achieving new benchmarks in environmental sustainability," said Mr Kwek Leng Joo, Managing Director of CDL.

5 Managing Director of HDB's Building Research Institute Er. Mr Lau Joo Ming said, "HDB is honoured to be a Green Mark Champion. As the largest developer in Singapore, HDB plays a major role in promoting sustainable development. HDB has been proactively promoting environmental sustainability by testing green technologies and innovations in both existing and new building developments. For existing precincts, HDB worked with BCA to co-develop the Green Mark criteria for

existing HDB blocks. For new projects, HDB's top Green Mark Platinum projects include Treelodge@ Punggol, SkyTerrace@Dawson and SkyVille@Dawson. Completed in December 2010, HDB's first Eco-Precinct - Treelodge@Punggol - adopted various eco-friendly design features. These include a north-south orientation to reduce heat gain and minimise the reliance for mechanical cooling. Green technologies such as solar panels are also used to tap on clean energy to power the common areas such as lighting the corridors."

6 Compared to previous years, this year's BCA Awards Ceremony on 19 May will see the most number of BCA Green Mark award winners. Of the 164 winners, which include the two Green Mark Champions, a record number of 45 Green Mark Platinum awards will be given out to exemplary developers and building owners this year. With this new batch of winners, there are now more than 750 Green Mark building projects in Singapore, amounting to 11% of the total gross floor area. This promising result is the joint effort of developers and building owners who have taken a conscious effort to incorporate environmentally-friendly designs and solutions in their building projects.

7 Dr John Keung, CEO of BCA said, "CDL and HDB have achieved outstanding results in their greening efforts, and are well-deserving of their accolades as Green Mark Platinum Champion and Green Mark Champion respectively. We are also heartened to note that the industry has been working hard towards the greening of Singapore's built environment, with more than half of the award winners this year achieving the higher Green Mark Gold^{Plus} or Platinum standards. This is indeed very encouraging as it represents a step forward for the nation in achieving the target of greening at least 80% of all buildings in Singapore by 2030."

Issued by the Building and Construction Authority on 16 May 2011.

About Building and Construction Authority

The Building and Construction Authority (BCA) of Singapore champions the development of an excellent built environment for Singapore. At BCA, our mission is to shape a safe, high quality, sustainable and friendly built environment, as these are four key elements where BCA has a significant influence. In doing so, we aim to differentiate Singapore's built environment from those of other cities and contribute to a better quality of life for everyone in Singapore. Hence, our vision is to have "the best built environment for Singapore, our distinctive global city". BCA works closely with its education hub, the BCA Academy of the Built Environment, and industry partners to develop skills and expertise that help shape the best built environment for Singapore.

Annex A: BCA Green Mark Champion Award

The BCA Green Mark Champion Award was launched at BCA Awards 2008. This award recognises developers with strong commitment towards corporate social responsibility and outstanding achievements in environmental sustainability. It is given to developers who achieve a substantial number of Green Mark buildings at Gold level and higher.

There are two categories for the award:

- BCA Green Mark Champion
- BCA Green Mark Platinum Champion

Besides demonstrating strong commitment towards corporate social responsibility and environmental sustainability, developers must meet the following criteria to qualify:

Criteria

Total no. of buildings rated	BCA Green Mark Champion	BCA Green Mark Platinum Champion
Green Mark Gold & above	At least 10	At least 50
Green Mark Gold ^{Plus}	At least 3	At least 15
Green Mark Platinum	At least 3	At least 15

Annex B: List of BCA Green Mark Award Winners 2011

Summary of Green Mark Awards Conferred:

2 Green Mark Champions

45 Green Mark Platinum

37 Green Mark Gold^{Plus}

64 Green Mark Gold

16 Green Mark Certified

Total: 164
