

Factsheet on SME Centres

To ensure that SMEs have access to the various resources to help them start, sustain and grow their businesses, SPRING Singapore established a network of SME Centres where SMEs can get free business advisory services.

The SME Centres provide the following services:

- i. One-to-one business diagnosis and advisory in areas like productivity, finance, human resources and overseas expansion.
- ii. One-stop advisory on government schemes, guidance on grant application.
- iii. Capability workshops to help SMEs learn how to improve their productivity and financial knowledge.
- iv. Networking and business matching to connect SMEs with local and overseas partners.

To provide these services, the SME Centres work with government agencies like SPRING Singapore, Infocomm Development Authority, Inland Revenue Authority of Singapore (IRAS), International Enterprise Singapore, Singapore Workforce Development Agency, and partners from the private sector. These partnerships will ensure that SMEs will be linked to the relevant expertise and networks to help in their business growth.

SMEs can visit any of the five SME Centres located at the Chinese, Indian and Malay Chambers of Commerce and Industry, the Association of Small and Medium and the Singapore Manufacturing Federation, or any of the seven satellite SME Centres located at the Community Development Councils (CDCs), Ang Mo Kio Community Centre and Changi Simei Community Club for assistance.
