TRUCK OVERTURNS AT JURONG SPILLING NON-TOXIC CHEMICAL

Date Published: 07 Aug 2000

A truck overturned near No 2 Jalan Pesawat at about 10.00 am today. The truck was carrying a 20 ft container packed with 18 drums of non-toxic, "Blankophor PSK Liquid". The liquid is used for cleaning optical equipment. A number of containers were damaged during the accident, causing the cleaning liquid to spill onto the road and into the roadside drain. The roadside drain was blocked to contain the spilt liquid. The SCDF has cleaned up the road, and the spilt liquid contained in the drain was pumped into containers and removed for safe disposal.
