Chief Defence Scientist Receives Distinguished Alumni Award

30 Mar 2002

Prof. Lui Pao Chuen

Chief Defence Scientist, Professor Lui Pao Chuen, was presented with the United States Naval Postgraduate School Distinguished Alumni Award on 29 Mar 02 in California.

Professor Lui is the third person to receive this award, and is the first non-American to be honoured as a Distinguished Alumnus.

The award was given in recognition of Prof Lui's professional contributions to the NPS and his instrumental role in forging closer ties between MINDEF and NPS. In 2001, a Statement of Intent was signed to establish the Temasek Defence Systems Institute (TDSI). The TDSI, set up jointly by NUS and NPS, enhances postgraduate education in defence technology and systems, and provides a platform for joint collaboration in research projects.
