## Factsheet - Best Ship: RSS Resolution

30 June 2005

RSS Resolution has been awarded with both the Best Ship award and the People Excellence award in the RSN Best Ship Competition. The RSN Best Ship Competition is an annual event to encourage ships in the RSN to strive for excellence.

Commissioned on 18 Mar 2000, RSS Resolution is from the RSN's 191 Squadron and is commanded by LTC Lee Swee Ann. The 141-metre long Landing Ship Tank is built for multi-role operations ranging from logistics support, midshipmen training to humanitarian aid and disaster relief missions as well as maritime security operations. With a crew of sixty-five officers and specialists, its primary mission is to support SAF operations in the defence of Singapore's sovereignty. Given its multi-role capabilities, it also supports a variety of peacetime SAF and coalition operations.

RSS Resolution has demonstrated her readiness through a series of operational tasks, exercises and inspections. To live up to her motto "Steadfast Always", the ship aims to maintain a high level of readiness and to have an effective crew that can be counted on to accomplish all tasks assigned to the ship.

The ship also returned from a 4-month long deployment to the North Arabian Gulf in March this year, during which she participated in coalition maritime operations in support of the post-war reconstruction of Iraq.
